

VACC-SAFE VS1006P COMPARISON

Item	Brand	Vacc-Safe	Thermoline	Avem Quirks	Vacc-Safe Advantage
	ModelNo.	VS750P	TLR-950-2-GD	Medisafe Plus 1000	
Product Performance	Temperature range	2°C – 8°C	2°C – 8°C	2°C – 8°C	
	Total Storage Volume(L)	1006L	950L	980L	
	Product size(mm)(wxdxh)	1220x808x1920	1230x740x2010	1130x745x2200	Smaller physical footprint, with larger internal space.
	Interior size (mm)(wxdxh)	1130x634x1354	1080x530x1430	–	
	Controller	Microprocessor	Digital	Digital	
	Display	LED (Temperature & Humidity)	LCD	LCD	Allows the user to see the ambient temperature and humidity in the room.
	Temperature Uniformity(°C)	≤2°C	≤2.5°C	–	
	Cooling system	Forced air cooling	Forced air cooling	Forced air cooling	
	Rated Power (W)	380w	850w	–	
	Energy Consumption	4kWh/24h	6kWh/24h	3.79kWh/24h	
	Top cooling	Yes	No	No	Strong cooling airflow from the top to the bottom, works as an air curtain to block the external hot air from entering the refrigerator when door is opened
	Inverter Compressor	Yes	No	No	Improves cooling performance, reduces energy consumption by 15% compared to other brands and operates at a decreased noise level.
Accessories	Multiple Alarms	Sound, light, power failure, sensor failure, environment temperature, door ajar, high temperature, low temperature, remote.	Door open, High temperature, low temperature	Door open, High temperature, low temperature	Multitude of alarms for peace of mind that your vaccines and medications are being monitored to the best of the refrigerator's ability.
	USB Interface	Yes	No	No	Integrated USB data logger with easy-to-read reports and graphs. No software is needed.
	Controller Backup Battery	Yes (15hrs)	No	No	Allows you to see the temperature when there is a power outage.
	Access port	Yes	Yes	No	
	Remote Alarm Port	Yes	No	No	
	Anti-Condensation Door	Yes (electrical heating)	No	No	Prevents condensation, especially in hotter months.
	Castors	Yes	Yes	Yes	Allow for easy movement of the unit, rolls around with no need for lifting.
	Lockable	Yes	Yes	Yes
