

Tuffie cleaning and disinfecting wipes

New Look & Improved Fabric

The **NEW IMPROVED** triple layered fabric, with emboss pockets and microfibre core, absorbs and traps surface soils and holds onto bacteria and bio-film to prevent cross-contamination.

The triple layered construction gives: strength; softness; absorbency; and is non-linting. The fabric is 100% Polypropylene, optimising bactericidal efficacy.

Tuffie detergent wipes

A range of wipes for effective cleaning of hard surfaces, equipment and non-invasive medical devices.

Perfect for using where general cleanliness is required quickly and conveniently.

Specially formulated to remove dirt from surfaces and equipment:

Ideal for use on mattresses, beds, commodes, door handles, hoists, trolleys and other general equipment.

Other benefits when using Tuffie Detergent Wipes:

- Improved cleaning performance
- Non-streak formula
- Faster drying time
- Active Odour Control
 - Attacks & destroys bad smells
 - Effective against vomit, faeces and urine
 - No allergen labelling required.

Tuffie5 cleaning & disinfecting wipes

Ideal for the patient care environment where cleanliness and eradication of bacteria is required.

Impregnated with a low level biocide. Wipes are large, strong and easy to use.

- Tuffie 5 wipes are impregnated with a low level biocide for cleaning and disinfection of hard surfaces and equipment.
- The formulation combined with mechanical action when using the wipe aids the removal of organic matter and improves infection prevention and control.
- Tuffie 5 wipes are suitable for use on all hard surfaces where cleanliness and eradication of bacteria is required.

Tuffie Disinfectant Wipes

Ideal for non porous surfaces where clinical disinfection is required. It contains 70% solution of Isopropyl alcohol BP.

Use in Theatres, A&E, Sterile Services and other areas where required.

Ideal for use on hard surfaces and equipment:

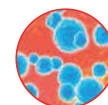

Can be used in Theatres, A&E, Occupational Therapy, Radiology, Catering and anywhere else where clinical cleanliness is required quickly and conveniently.

Other benefits when using Tuffie Disinfectant Wipes:

- 70% solution of Isopropyl Alcohol BP.
- Proven against E.Coli, MRSA plus a range of other micro-organisms.

Medizyme Enzymatic Detergent

The first and often vital step in any process of sterilisation is the removal of organic soils. If blood or other organic matter is not entirely removed prior to sterilisation, sterility of the equipment may be compromised. MEDIZYME acts quickly by penetrating and degrading dried blood and other proteinaceous continuations that are difficult to remove by traditional methods of cleaning.
