Cardinal Health™ Exam Gloves

When it comes to safety and comfort, we've got you covered.

Flexal® Nitrile Exam Gloves

Powder-Free Non-Sterile Nitrile Examination Gloves

Flexal® Nitrile Exam Gloves offer an alternative to latex and other nitrile gloves currently available in the market today. They provide tactile sensitivity and help protect the hands from potentially infectious materials.

Features and benefits

- Textured fingertips enable grip even when wet
- Powder-free
- Not made with natural rubber latex
- Ambidextrous
- Colour: Cornflower blue
- Nominal fingertip thickness: 4.2 mil (0.11mm)

		Box/200
31040041	XSmall	\$19.90
31040042	Small	
31040043	Medium	
31040044	Large	
31040045	XLarge	

Esteem® XP (long cuff)

Powder-Free Non-Sterile Nitrile Examination Gloves

Esteem® XP examination gloves feature a long, beaded cuff that safeguards the hand and wrist against spills and splashes while assisting in easy donning and inhibiting roll-down.

Features and benefits

- Provides tactile sensitivity while maintaining strength and barrier protection
- Smooth finish
- Extended cuff provides additional protection in high-risk areas
- Appropriate for those with a natural rubber latex sensitivity
- Powder-free
- Not made with natural rubber latex
- Ambidextrous
- Colour: Blue
- Nominal fingertip thickness: 5.5 mil (.14mm)

		Box/50
31040061	Small	\$9.90
31040062	Medium	
31040063	Large	

Positive Touch®

Powder-Free Non-Sterile Latex Examination Gloves

Positive Touch® Latex Exam Gloves deliver protection, flexibility and durability. You'll notice the comfort the first time you try them on.

Features and benefits

- Provides tactile sensitivity while maintaining strength and barrier protection
- Fully textured for a secure grip, even when wet
- Beaded cuff facilitates donning
- Powder-free latex
- Ambidextrous
- Colour: Cream
- Nominal fingertip thickness: 4.7 mil

Protexis® PI Latex-Free Powder-free Surgical Gloves

Protexis PI Synthetic Surgical Gloves fit, feel and perform so much like latex gloves that you'll have a hard time believing they are not. That's because the molecular structure of Protexis PI polyisoprene synthetic rubber is nearly identical to natural rubber latex. The only difference is that the natural rubber latex proteins and allergens have been eliminated and, with that, the worry of latex allergies.

- Unique polyisoprene formulation and proprietary manufacturing technology provide fit, feel and performance comparable to natural rubber latex
- Eliminate concerns regarding glove-related natural rubber latex proteins and allergens
- Eliminate risk of glove-related Type I reactions in patients and healthcare workers

NEW

DO THE MASK STANDARDS LEAVE YOU EXPOSED?

AS 4381:2015 IS THE NEW STANDARD FOR SINGLE-USE FACE MASKS

- Masks are now rated into three levels of protection: Level 1, Level 2 and Level 3
- Masks are required to meet minimum fluid resistance: 80, 120 and 160mm Hg
- The standard suggests mask protection levels for procedures and departments

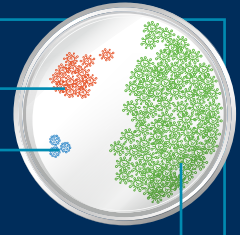

HALYARD, YOUR PARTNER IN COMPLIANCE

- ✓ All HALYARD[®] FLUIDSHIELD[®] Masks meet the new Australian Standard AS 4381:2015
- ✓ FLUIDSHIELD[®] Masks are available in Level 1, Level 2 and Level 3
- ✓ The level of protection is clearly labelled on the mask nose piece and on the box, so you and your staff can easily identify the right mask for each task

As little as **1 millilitre of blood** can contain **virus counts** ranging from:¹

HEPATITIS C
1 Million
HIV
10–1,000
HEPATITIS B
1 Million–10 Trillion
