

OnTrak, the New Evolution of ABPM from Spacelabs Healthcare

**Includes:
2 x BP cuffs**

1 x standard adult size
BP cuff and 1 x extra
large adult size
nylon BP cuff

Vigilance with Confidence

OnTrak is the result of over forty years of expertise in the research and development of ambulatory blood pressure recording.

Spacelabs OnTrak Ambulatory Blood Pressure monitor has been comprehensively tested and validated against all three of the recognised international protocols, to give you reassurance and confidence when assessing a patient's hypertension.

Ease of Use

- Large 2.4" color screen makes it easy to program giving full control of functionality.
- Protocol, Child Mode and Maximum initial inflation Pressure can be set on the unit.
- Monitor your patient for up to seven days or up to 300 readings on two AA batteries.
- The 'Comfort Mode' setting controls initial inflation pressure reducing patient anxiety and thus enhancing compliance.

OnTrak ABP Monitor

The New Evolution of ABPM

- Uses 2 standard AA batteries
- Record up to 300 readings on single set of batteries for multi-day study use
- Robust reusable cuffs
- Cuff covers for optimal patient comfort and cuff protection
- Error code reporting with reason descriptions
- Maintenance contracts available for maximum up time
- BHS: A/A rating
- ESH: ESH-IP2 recommended for clinical use on adult population
- AHA: Meets criterion 1 and 2 of ANSI/AAMI/ISO 81060-2:2009 for both adults and children
- Includes Sentinel ABP Reporting Software
- Optional: Windows 10 upgrade
- Optional - Sentinel Network Capabilities
- Supplied with 2 cuffs: Adult and Large Cuffs

HEM-907 Blood Pressure Monitor

The HEM-907 is a top-of-the-range digital blood pressure monitor. Featuring Intellisense™ technology, it can function via both Automatic Oscillometric and Automatic Auscultation measurement mode. Designed for hospital, general practitioners and other medical professionals.

- Dual functions – Automatic Oscillometric and Automatic Auscultation
- Accuracy and precision, complying with AAMI standards
- Quiet operating system, ideal for clinical environment
- Easy to operate using intellisense technology
- Consecutive measurement option with variable waiting and interval time

\$895

DA907

Includes small/medium/large cuff & adaptor

HEM7322 Premium

Automatic Blood Pressure Monitor

- Simple onetouch operation
- 90 reading memory with date and time
- Enhanced Intellisense technology
- Dual Check System
- Displays the average of the last 3 readings
- Detects irregular heart beat & body movement
- Blood Pressure Level Indicator
- Flexible fan shaped cuff
- Carry bag included & Cuff size (Med -Lrg) included
- Long Battery Life – 1,500 readings with new alkaline batteries
- 4 years extended warranty when registered online
- Optional AC adapter

Connex® ProBP™ 3400 Digital Blood Pressure Device

Accurate, reliable, connected blood pressure readings in the palm of your hand.

- Small, handheld design makes device easy to carry and capture readings on rounds or in triage settings
- Hospital-grade SureBP™ technology enables fast, accurate 15-second blood pressure readings, improving patient comfort
- Obtains accurate readings and minimizes error codes, even in the presence of many cases of motion or weak pulse
- USB-wired technology enables connectivity to select EMR/HIS systems, improving documentation accuracy and efficiency
- Compatible with blood pressure cuff sizes ranging from small child (12 cm) to thigh (55 cm)
- Lithium ion battery technology delivers 100 readings on a single charge with rapid recharge time
- Mercury and latex free to ensure clinician and patient safety
- Wall mount, desk mount or mobile stand available
- Includes Flexiport Adult and Large Adult BP Cuffs

HEINE QUALITY
MADE IN GERMANY

Heine GAMMA G7 sphygmomanometer

Experience The Difference

- Shockproof
- Latex-free
- Aluminium upper housing
- 10 year guarantee

GAMMA G7®

The top-of-the-line model with aluminium alloy construction

- Latex-Free
- Exclusive air-release valve. Provides fine and precise air-release rate adjustment, quick deflation and extreme durability. A rubber-stop prevents valve-lock
- Exceptionally strong housing construction with triple-mounted, shockproof movement
- Impact-resistant housings crafted in special, shock-absorbing materials incorporate the latest advances in injection-moulding technology
- Pressure-proof manometer. Ensures durability and reliability
- Micro-filter. Protects valve and manometer
- Easy-to-read 56mm diameter scale
- 50% larger bulb volume for fast inflation of the cuff
- Light alloy, adjustable spoon. For both right or left-handed operation
- 10 year manufacturers warranty

\$210

HEM0009237

The HEINE G7 is unique in its advanced construction. The all-metal housing makes it virtually indestructible.

GAMMA GP®

Combines all the design and quality features of the GAMMA G5, but with a push-button valve.

Fine and precise air-release rate adjustment, ultra-fast air-release, practically wear-free.
5 year manufacturers warranty

\$179
HEM0009240

GAMMA G5®

The HEINE standard sphygmomanometer

Virtually the same as the G7 Model except the housing is moulded of 2 component thermo plastic.
5 year manufacturers warranty

\$144
HEM0009235

GAMMA XXL LF®

The versatile professional model

- Latex-free
- Durable polycarbonate construction
- Will hold up in the busiest hospital and practice environments
- Oversized 130mm diameter scale
- Can be pivoted for clear, easy reading from any angle
- Long spiral inflation tube for increased working distance
- Precisely calibrated and durable
- Precision air-release valve
- Pressure-proof manometer. Ensures durability and reliability
- Wall, desk, wheeled stand. Adjustable height

FlexiPort Reusable Blood Pressure Cuffs Multi-Cuff Kit

Long lasting, easy to use, and affordable, Welch Allyn cuffs are the top choice for hospitals and clinics around the world. Why? Because Welch Allyn can offer you virtually every type, size, and configuration of cuffs, along with the ability to simplify inventory and reduce confusion with our innovative FlexiPort connection, which makes every cuff a one or two-tube cuff.

- Primary sizes are colour coded to make it easy to find the proper cuff size
- Easy one-hand attachment/detachment of tubing with FlexiPort makes changing cuffs much faster and easier
- Latex-free material minimizes risk of allergic reactions
- Rotatable port reduces stress to cuff tubing and port, improving patient comfort and cuff durability
- Folded edge reduces risk of cuts and scrapes, maximizing patient comfort
- Meets all latest clinical guidelines for proper fit from AAMI and AHA
- 3 Year Warranty
