

3M™ Medical Tapes and Wraps Transforming Patient Care

An important part of delivering a safe, successful patient experience starts with your securement solutions. The products your facility chooses, in addition to how clinicians apply and remove them, may seriously impact clinical outcomes and patient care.

At 3M, we've made it easy to choose the right securement for each patient with four simple categories.

<p>Non-adhesive</p>   <p>3M™ Coban™ NL Non-Latex Self-Adherent Wrap</p>	<p>Multi-purpose</p>   <p>3M™ Micropore™ Surgical Tape 3M™ Micropore™ S Surgical Tape</p>	<p>Flexible</p>   <p>3M™ Medipore™ H Soft Cloth Surgical Tape</p>	<p>High-strength</p>   <p>3M™ Durapore™ Surgical Tape</p>
<p>Other non-adhesive 3M medical securement solutions:</p> <p>3M™ Coban™ Self-Adherent Wrap (contains latex)</p> <p>*Stretched length</p> 	<p>Other multi-purpose 3M medical securement solutions:</p> <p>3M™ Transpore™ Surgical Tape</p>	<p>Other flexible 3M medical securement solutions:</p> <p>3M™ Microfoam™ Surgical Tape</p>	

 **Individually packaged single-patient-use rolls** can help protect patients by reducing the risk of cross-contamination.**
