

Ansell's Recommended Gloves

Our innovative range of medical gloves are designed to prevent allergic reactions, staff injuries in clinical settings and medical errors

GAMMEX® NON-LATEX

Synthetic

- Non-latex and 100% chemical accelerator-free to eliminate the risk of latex Type I and minimize chemical Type IV allergies and skin sensitivities
- SUREFIT™ Technology: This technology eliminates cuff roll-down and provides healthcare professionals with superior protection during procedures

Contact Ansell Customer Service for specific chemotherapy drug permeation times and recommendations
